Why Use Hydrogen Peroxide in your Bath Water, Swimming Pool or Hot Tub?

Pool & Hot Tub chemicals are among the most health destroying toxins ever made
*How to **LOVE** your swimming pool or Hot Tub again*

Bath, Pool & Spa 35% Food Grade Hydrogen Peroxide

Visit our informative pool & hot tub page if you have a pool or hot tub or order click here.

The fastest growing use of 35% Food Grade Hydrogen Peroxide is for swimming pools and hot tubs. People who switch to h2o2 love their pool or hot tub once again - plus it is very good for your health.

Conventional swimming pool chemicals *(chlorine and bromine)* were introduced over a century ago when the harms of chemicals were unknown. These chemicals are so extremely dangerous they have been used to make chemical weapons for war. Chlorine is 1 of the 10 most health destroying chemicals. It causes cancer, DNA cell damage, nerve and brain damage, sterility and birth defects and dozens of other known health damages.

Your skin in porous. This is why if you ever swim in a public pool with heavy chlorine your skin quickly wrinkles and turns white. It is being poisoned. Worse, your lungs rapidly put the fumes of the chemical-laced water into your blood stream destroying cellular DNA. Your immune system subconsciously recognizes the danger of that water by the smell of the fumes. This is why people soon come to rarely use their swimming pool or spa - and why most people who have one say they would never have a pool or hot tub again, not understanding why.

Pure hydrogen peroxide is water and oxygen and therefore is not toxic. While the oxygen is deadly to micro-organisms, it is great for your skin and cellular body. Rather than a pool or hot tub filled with lethal chemicals that over time destroys your health, water with hydrogen peroxide is good for your health. Your immune system subconsciously wants you to go swimming in your pool or soak in your hot tub. If you switch to hydrogen peroxide instead of dangerous chemicals you will fall in love with your swimming pool or hot tub again.

Sea Soak & Body Purification

This is a pure natural health collection you will truly enjoy

Body Purification

Although an unpleasant topic, the human body is covered with billions of tiny body mites. Many believe they are a major cause of skin aging and blemishes. Like all living creatures, they also excrete wastes - which then become sources of micro bacteria and fungus causing micro infections, clog pores and prevent breathing, and prevent proper release of dead and replaced outer skin cells.

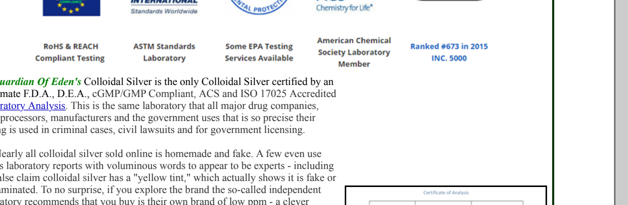
Colloidal Silver

On sale - never spoils - stock up
NOTE: We are selling out of this quickly



Documented by Certified Laboratory Testing

Nearly all Colloidal Silver sold online is fake

FDA Registered | DEA Licensed (Schedule I-V) | cGMP/GMP Compliant | GLP Compliant | ISO 17025 Accredited
RoHS & REACH Compliant Testing | ASTM Standards Laboratory | Some EPA Testing Services Available | American Chemical Society Laboratory Member | Ranked #673 in 2015 INC. 5000

Guardian Of Eden's Colloidal Silver is the only Colloidal Silver certified by an legitimate F.D.A., D.E.A., cGMP/GMP Compliant, ACS and ISO 17025 Accredited Laboratory Analysis. This is the same laboratory that all major drug companies, food processors, manufacturers and the government uses that is so precise their testing is used in criminal cases, civil lawsuits and for government licensing.

Nearly all colloidal silver sold online is homemade and fake. A few even use bogus laboratory reports with voluminous words to appear to be expert - including the false claim colloidal silver has a "yellow tint," which actually shows it is fake or contaminated. To no surprise, if you explore the brand the so-called independent laboratory recommends that you buy is their own brand of low ppm - a clever deception pretending to be an independent laboratory.

Why would you buy colloidal silver when the seller has no documentation of what the contents are, if it is real, or if it has any silver in it whatsoever? Legitimate laboratory testing is costly. Our last testing such as you see in the analysis report cost $3600. Our colloidal silver is documented, pure and the most potent you can buy at any price - now on sale.

Click Picture for full size

NEVER BUY UNDOCUMENTED COLLOIDAL SILVER

Unless a seller has a real and legitimate professional laboratory analysis to document the ppm level and that the ppms are caused by silver, it is virtually certain the product labeling is false. Guardian Of Eden has been known as the premier source of natural health products for decades and never compromise quality or purity. See the laboratory analysis here.

Rocket 88 is a unique proprietary mineral supplement by Guardian Of Eden a premier health and dietary suppliers with a very exact perspective on human health. Their premise is that the human body as a super colony of as many as 75 trillion individual cells. The human body can not be healthy if your cells are not healthy.

One of the needs of most cells is minerals, including trace minerals. Due to commercial agriculture long ago depleting the minerals from the land most people have a severe deficiency in trace minerals. While plants can manufacture vitamins, they can only obtain minerals from the ground. If the ground lacks minerals, the plants and the animals that eat the plants will all be devoid of essential minerals.

Rocket 88 contains all 72 trace minerals, Fulvic Acid, Amino Acids and 100 ppm colloidal silver. Click here to see our temporary Black Out Sale on Rocket 88 packages. CLICK HERE FOR DETAILS
